۹- متن زیر را بخوانید و به سوالات آن به صورت خواسته شده پاسخ دهید

3 One day Isaac Newton was reading a book under an apple tree when an apple fell out of the tree. Why did the apple fall? What makes things fall? Newton spent many years answering these question by thinking and doing experiments. He finally made up the up the law of Gravity. His law also explained how plants move around the sun or how moon move around the planets. The reason that things fall toward the ground is that the earth we live on is so heavy that it pulls and absorbs things to itself its great force.

23-What law did Newton make?

24-What made him think about that law?

25-He was doing an experiment under the tree. True false

26-He made the law of gravity after a few days. True false

27-His law explains how the earth pulls objects toward it. True false

28-Things fall to earth because the earth is heavier. True false
